Edgio Wins Hot Company Award in 11th Annual Global InfoSec Awards at #RSAC 2023

SAN FRANCISCO--(BUSINESS WIRE)--Apr. 25, 2023-- Edgio, the platform of choice for speed, security, and simplicity at the edge, today announced it has won the "Hot Company" award for Web Application Security from Cyber Defense Magazine (CDM), the industry's leading electronic information security magazine. The award was announced at the RSA Conference 2023 taking place this week in San Francisco, Calif.

"We're thrilled to receive one of the industry's most prestigious and coveted cybersecurity awards from Cyber Defense Magazine, during their 11th anniversary as an independent cybersecurity news and information provider," said Ajay Kapur, CTO and GM of Applications for Edgio. "While the competition was tough, Edgio's edge-enabled, holistic security offerings provide a complete solution to shield businesses from the latest threats, without sacrificing performance – clearly setting us apart. Being recognized by top judges who are leading infosec experts from around the globe, we couldn't be more pleased."

"Edgio embodies three major features we judges look for to become winners: understanding tomorrow's threats, today; providing a cost-effective solution; and innovating in unexpected ways that can help mitigate cyber risk and get one step ahead of the next breach," said Gary S. Miliefsky, Publisher of Cyber Defense Magazine.

Edgio Security is a complete Web Application and API Protection (WAAP) solution designed to protect businesses from the latest threats targeting web applications, user data, and infrastructure. The company's advanced bot solution shields web properties and APIs from credit card stuffing attacks, account takeovers, web scraping and other automated threats. Backed by one of the world's largest edge networks, Edgio Security provides a massive capacity to absorb attacks. With Edgio, organizations can defend against even the largest DDoS attacks and safeguard their digital properties.

About CDM InfoSec Awards

This is Cyber Defense Magazine's tenth year of honoring InfoSec innovators from around the Globe. Our submission requirements are for any startup, early stage, later stage, or public companies in the INFORMATION SECURITY (INFOSEC) space who believe they have a unique and compelling value proposition for their product or service. Learn more at www.cyberdefenseawards.com

About the Judging

The judges are CISSP, FMDHS, CEH, certified security professionals who voted based on their independent review of the company submitted materials on the website of each submission including but not limited to data sheets, white papers, product literature and other market variables. CDM has a flexible philosophy to find more innovative players with new and unique technologies, than the one with the most customers or money in the bank. CDM is always asking "What's Next?" so we are looking for best of breed, next generation InfoSec solutions.
